

Apex145

DYNAMIC TABLE TOP GOOSENECK

APPLICATIONS: Conference Tables, Public Address & Forums, Broadcast / Announcements, Emergency Communications

DESCRIPTION:

The Apex145 is a dynamic cardioid tabletop microphone with an integrated stand base and a silent, latching on /off switch. This makes it an ideal mic for use in a conference rooms, seminars or press conferences. It can be placed on a conference table or on a lectern or podium where permanent mounting isn't practical. This is also an ideal choice for applications where the person speaking needs to be able to turn on or off their own microphone at the source. The Apex145 has a die-cast weighted base, balanced XLR output, and an integrated 18-inch gooseneck.

FEATURES:

- Integrated Stand & Gooseneck
- Cardioid Pick-up Pattern
- Push to Talk Switch
