

Apex370

DYNAMIC HEADSET W/ ATTACHED XLR CABLE

APPLICATIONS: Live vocals, Announcements, anywhere phantom power is not available

DESCRIPTION:

The Apex370 is ideal for singers, drummers or anyone who prefers to have their hands free during a performance and not be tied to a traditional mic and mic stand. The lightweight and easily adjusted wire frame is tough enough to withstand continuous, highly active use, yet be comfortable enough to wear for extended periods of time.

The Apex370 features a dynamic cardioid microphone specifically optimized for close proximity use and as a dynamic mic does not require phantom power to operate.

An attached 15-foot (4.6m) XLR microphone cable direct connects to any traditional PA mixer.

FEATURES:

- Rugged Secure Headband Assembly
- Flexible Microphone Gooseneck
- Handles High SPL
- Unidirectional Polar Pattern Allows Maximum Gain Before Feedback
- Ideal for Live Vocal, Announcement and Broadcast Applications
- Velcro Support Headband & Mic Windscreen Included
