

APEX HP35

Folding Closed Ear Headphones

The Apex HP35 Closed Ear Dynamic Headphones are the ideal solution for monitoring applications either in the studio or on a live stage. Closed back for maximum isolation, the lightweight design ensures maximum comfort during long hours of listening. High performance low-mass diaphragms deliver maximum bass response and natural sonic reproduction. The compact folding design of the Apex HP35 economizes space while protecting the diaphragms during transport. Soft vinyl carrying pouch included.

Specifications:
